ABOUT NURSING SCHOOLS

- A nursing school is a type of educational institution, or part thereof, providing education and training to become a fully qualified nurse. The nature of nursing education and nursing qualifications varies considerably across the world.
- Nursing is the art and science of caring, healing, treating, curing and educating patients of all ages in diverse health care environments.
- The trained nurse has become one of the great blessings of humanity, taking a place beside the physician and the priest.

THE INDIAN NURSING COUNCIL

- The Indian Nursing Council – INC - is a national statutory body . The INC and state nursing councils regulate licensure. According to one informant India does not have a nurse practice act. Health care enterprises do hire unlicensed personnel.
- The INC and state nursing councils regulate nursing education
- Prominent nursing organizations include the following: Trained Nurses Association of India, the Student Nurses Association of India and Catholic Nursing Guild of India

DEMAND FOR THE SERVICES

- The internationally recognized standard ratio of Doctor to Nurse is 1: 2.5 (which means for every two Doctors a hospital needs 5 nurses).
- There is very good demand for trained Nurses not only within the Country but also Overseas
- India faces an acute shortage of nursing staff with an estimated deficit of 2 million. In the public sector alone, an additional 140,000 staff nurse is required. The nurse-population ratio is 1:2,500 compared with ratios of 1:150 to 1:200 in higher income nations. The nurse-doctor ratio is also poor – at 0.5 nurses per doctor compared with 3 or 5 per doctor in the USA and UK respectively.
